MANAGER’S REPORT:
Jean Curtiss’ noted that her attorney had reviewed the statute regarding the bonding of employees and found that it was not a requirement, but at the discretion of the board.

Appraisals would be needed for the Blaize Devins and Missoula County Public Schools properties. There was a letter of engagement from Stevens & Co to perform the appraisals for the Board to review. The work on the other easements continued.

Jean Curtiss had been invited to give an update on the on the sewer project at that the next Community Council meeting.

A District project manager position was discussed and it was agreed by consensus that Beth Hutchinson and Walt Hill would prepare an RFP that would be sent to Jean Curtiss for submittal to three local firms.
Davy Good moved to direct Pat Goodover to sign the letter of engagement from Stevens & Co. There was no further discussion. The motion was passed unanimously.

Walt Hill           Aye

The Board discussed the letter that Jean Curtiss had drafted to Missoula County requesting continuation of their support, and that Jean Curtiss would attend the Commissioners meeting that addressed this letter. Further discussion followed.

Great West Engineering had sent the collection system plans to DEQ for review today. Phase II remained a high priority for RRGL and TSEP grant funds. It was suggested that the Board contemplate having GWE complete the Phase II plans, which would allow it to be bid in the spring, whereby increasing the number of customers sharing the O&M cost.

The Board discussed the state requirements for operating the sewer plant and the possibility of sharing operators.

The Board discussed a website and agreed by consensus that Davy Good would review the demo.

**OLD BUSINESS:**

**A. User Agreement**

Jon Beal, the District’s attorney, had strongly advised that the Board take no action until all of the agencies involved had commented and the draft user agreement could be finalized. The Board discussed the public’s access to the District’s documents and the requests for them. Discussion followed on what the user agreement should cover and the timeframe that it needed to be completed.

Beth Hutchinson moved to release the initial draft user agreement that Mike Boltz had presented, in accordance with the sunshine laws. The Board discussed releasing the draft agreement, which contained substantive errors, to the public and the effect that might have. Conversely that maybe releasing the document could build trust with the public. However, once the user agreement was finalized that everybody should have input on it. The Board voted as follows and the motion was carried:

Pat Goodover        Aye
Walt Hill           Aye
Mike Boltz          Nay
Davy Good           Nay
Beth Hutchinson     Aye
B. By-Laws
To date the committee had not met. Walt Hill requested a third member. The possibility of Midwest Assistance Program helping was noted.

C. Communications Policy
The committee had not met to date. The Board discussed establishing a line of communication through Pat Goodover to the attorney, Jean Curtiss and others. Creating a by-law that the president had the main authority to interact with the attorney and other avenues were discussed.

NEW BUSINESS:
A. Midwest Assistance Program (MAP)/Income Survey
Erinn Zindt and Michelle Pond introduced themselves and listed the assistance that they could offer to the District, such as the user agreement. Erinn Zindt agreed that the sunshine laws were of the utmost importance, but was concerned that releasing an initial draft that was in its infancy could lead to mixed messaging.

MAP had been working with Gallatin Gateway on a project similar to Seeley Lake’s and reviewed some of the similarities of the two projects.

CDBG and income surveys were discussed. MAP could assist with an income survey by being the third party that kept the information confidential. The use of an income survey, census data and other data was discussed.

B. FY2020 Operating Budget
Beth Hutchinson suggested that the FY2020 Operating Budget needed to be expanded to cover some new fiscal responsibilities and would be reviewed by the Board shortly to meet the deadline for the annual assessment. As the project moved forward changes that could made to the annual assessment were discussed and how those changes would affect future phases.

C. Minutes Policy
The Board discussed the contents of the minutes.

D. Hiring Policy
The Board discussed developing a general hiring policy and qualifications.

E. Sub-District 1 Operation Budget
The question of charging a vacant lot O&M was raised. The matter would be researched.
F. **General Manager Position Details**
It was suggested that the general manager job should be defined in the policy manual. That could then be used to advertise for the permanent position after the temporary six-month position had finished.

G. **Attorney Bill**
Previously covered.

H. **Fact Sheet – Financing for Sewer Project & Sub-Districts**
This would be used for education and public relations. The Board discussed having Jean Curtiss develop a document and explore other funding sources, including the LOR Foundation, to help with public education.

Walt Hill noted that the Board had consistently tried to provide a service to the community at the lowest possible cost and reviewed various mechanisms, such as a resort tax, a water quality district and a tax increment district, that could be implemented to help offset the cost of the sewer to the community. The sewer was clearly beneficial, but Walt Hill felt the cost was too high. Hopefully the Board could somehow communicate with those that the Board weren’t doing too well with and help them to understand that the sewer had to start somewhere.

**NEXT REGULARLY SCHEDULED MEETING: April 18, 2019**
The Board discussed the next meeting date and agreed by consensus that it be moved to April 24, 2019.

**ADJOURNMENT OF MONTHLY BOARD MEETING:**
Pat Goodover adjourned the meeting at 7:25 pm.
