Seely Lake Sewer District,
I can't afford this sewer project
I'm 80 years old on a fixed income
I have a Cabin 142 acres long.
I am only there once in a while.
I need a place to go to get out
of town. I've had this place
for 40 years. The kids will
see when I am Dead & gone.

Seely Lake Home'sight - ADD 702
BIR 9 Lot 5 Parcel
2259956

I Pay Taxes 396.74 every
6 months. I don't need this
sewer & don't want it.
This sewer is 245.75 every 6
months I can't afford it.
Margie Evans.

I am writing to protest the administrative fee procured by the Sewer Board. The fees are excessive as the voters had previously shown they were opposed to the plan, and had voted "no," numerous times. The board continued with the same sort of plan despite protest from the populace. The board also came into existence under the doctrine that if a sewer was needed it would be affordable and make sense for the economic situation of Seeley Lake. They did not vote on an affordable plan and instead opted for a plan that was logistically challenging and very expensive for the town.

Not only did they try to push a plan that no one wanted and was expensive they continued and amassed huge fees they want to stick on the population that clearly voted "NO." I am in absolute protest of how the sewer board went about their business and amassed fees and pushed for a plan counter to their own conception doctrines, a plan that was voted no on numerous times. Thank you for your time and including my input.

Sincerely

Janina Bradley
Homeowner

Protest to "Equal" Assessment
Methodology per "Parcel,"
as intended

Many landowners in the arbitrarily-drawn
"Sewer District" bought an acre of land
20 years ago for home-use: a house &
a backyard.

We panicked when the Sewer Dist started
referring separately to our 2 1/2-acre "parcels."
The Department of Revenue can qualify
a homeowner with "two lots skirting
a contiguous boundary" to be taxed
as one parcel. Engineers go by
"Tax ID" numbers.

My property tax bill lists
my property tax ID as being for "Parcel
204----- (after consolidating the 2 tax
bills).

Please establish that exception
& any others to make assessments →

fair + reasonable!

(To aggregate 2 lots through County Planning, you have to hire a surveyor who pretends he's surveying 2 separately lots which don't share a boundary.

^{located} \$200 for Co Planning's input + at least \$700 for a surveyor!

Whatever method the Sewer Board decides on, please establish exceptions to make it fair for all - i.e. combine "use" + how many hookups would be needed based on use historically.

Thank you for your consideration,

Shel Akane
