

Seeley Lake Missoula County Sewer District
is soliciting
Requests for Qualifications

- Seeley Lake is a community in Missoula County MT, 59868. It is home to 1,659 residents with 759 households, apartments and two public schools. Commercial facilities consist of retail stores, gas stations/auto shops, restaurants/bars and a lumber mill.
- The main activities involve logging and recreation. The lake attracts visitors in the summer for fishing, skiing and camping activities. In the winter the surrounding mountains, lakes and trails are filled with snowmobile and ice fishing enthusiasts.
- Seeley Lake is a County Sewer District but has no common sewer system. The homes and businesses are served by individual septic systems.
- The District has a privately owned RV dump station which is heavily used during the summer months.
- The community has a potable water system and most homes and businesses are served by this system. The water source is Seeley Lake.
- The ground and surface water in the district are showing signs of degradation, most likely caused by the many drainfields in the area.
- The community is wishing to construct a sewer system or series of systems and eliminate the individual drainfields.
- Respondents' qualifications will be reviewed and scored by the Seeley Lake Sewer Board of Directors.
- Selected respondents will be sent Requests for Proposals for the design of a wastewater collection and treatment system or series of systems.
- Respondents may also be considered for the construction phase of the project.
- Respondents must supply 7 copies of their Qualifications to **Seeley Lake Missoula County Sewer District P.O. Box 403 Seeley Lake MT, 59868.**
- Respondents must reply by **April 7, 2022.**

All inquiries should be addressed to the Seeley Lake Sewer District Manager SLSDManager@gmail.com.
